

viroc
nature

Concept

The Viroc Nature panel was designed to create new decorative solutions, revealing the most natural side of the Viroc panel. It is perfect when being combined with other materials such as wood or stone.

The advantages of this product lie in its natural appearance, the approach to the nature of the materials, the ideal combination with woods and smooth surfaces by contrast to the raw aspect it presents.

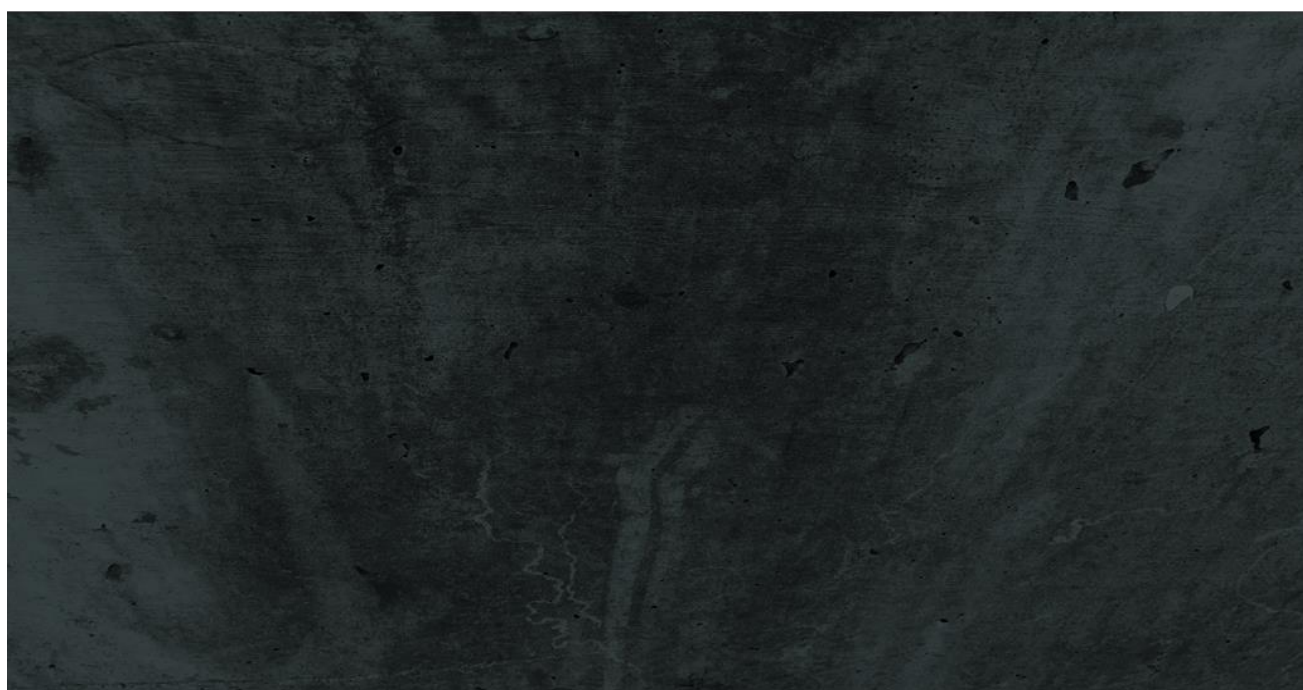

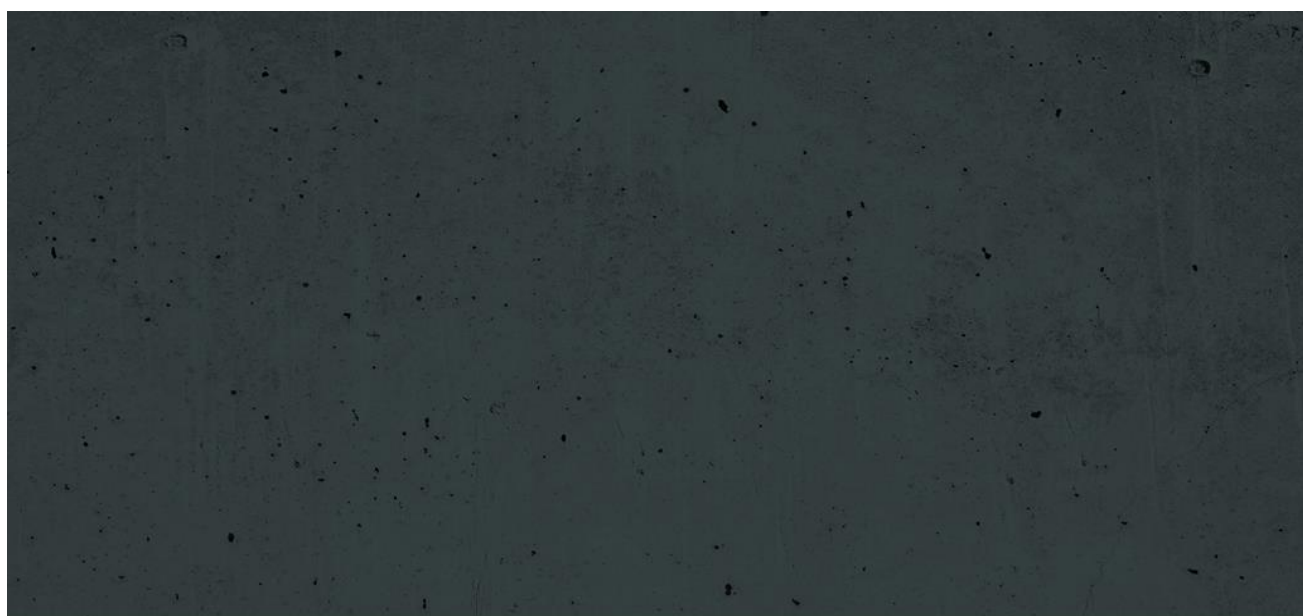

Standard Product:

Dimensions (mm): 1200x600
